Trails & Survey Routes There's an old trail from the cannery but I don't know if it parallels the stream - large stream should be trails along stream banks.

Aerial Survey Notes Water a little dark but it's open and should be surveyable.

Anchorage Not a very good anchorage but in the area of the cannery - possibly run inside the chuck at slack water.

Tide Stage When Surveyed 1/2 flood tide.

FISHERY RESOURCES

Commercial Fisheries Pink and chum

Escapement 9-16-27 - 15,000 pink; 9-1-57 - 3,200 pink and 3,500 chum
(6600'L x 60'W x 40% ASA) Spawning area = 14715 m².

Species Composition 75% pinks and 25% chums

Timing Supposedly middle

Schooling areas Off the mouth, intertidal area or pools within the stream.

Shellfish Potential Not really much of a flats for clams but could be some dungeness crab here - didn't try any pots.

Sport Fisheries Larger type system and there could definitely be trout here.

Land Use at Present None

History of Land Use Cannery was here so any associated activity on the stream as sport fishing, falls a few trees, etc.

Rehabilitation Potential None - falls are too extensive.

Soils Generally stable, didn't see any slide or slumpage areas.
